

How to Make a Kitty Hammock: **(Adapted from ASPCApro.org)**

Materials (to make 3 hammocks):

- 36 inches of 60-inch-wide fleece
- 4 yards of webbing (you will need 12 foot-long strips)

Instructions:

Figure 1

Figure 2

Figure 3

Figure 4

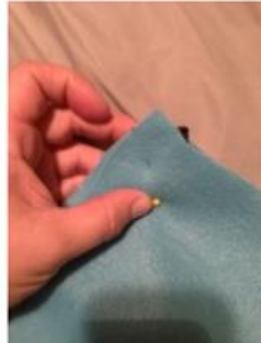

Figure 5

Figure 6

1. Fold fleece in half, so you have a doubled-over piece that is 18 inches by 60 inches
2. Cut out six 18-inch squares; you will have a few inches left over (figure 1)
3. Cut webbing into a dozen 12-inch strips; use a lighter to burn each end so they don't fray (figure 2)
4. Line up your straps – double over a strap to make a 6-inch loop, and place one loop at each corner (figure 3)
5. Loop should point toward center, and ends are in corners of fleece (figure 4)
6. Sandwich each loop between 2 pieces of fleece and pin (figures 5 and 6)
7. Sew around edges; make sure to go back and forth over the webbing several times
8. Leave a gap big enough to turn right-side out
9. Turn right-side out, and zig-zag stitch around entire hammock
10. Use carabiners to hang hammock in kennel
