

Got mice?

There's a natural pest control solution!

Barns • Auto Repair Shops • Woodworking Shops • Wineries • Breweries • Stables
Greenhouses / Nurseries / Garden Centres • Churches • Storage Facilities

Working cats for hire!

Some cats love to cuddle on the couch, while others prefer more independence outside a traditional home environment. We are looking for alternative homes for those felines! These proven mousers are healthy, fixed and vaccinated cats who are ready to work. They can provide natural pest control in exchange for food and water, shelter and any necessary veterinary care.

Why hire a working cat?

All working cats are:

- Spayed/neutered
- Treated for worms and fleas
- Vaccinated
- Microchipped
- No Adoption fee
