### **Medical**

Have you taken your cat to the vet for out-of-litter box elimination issues? YES NO If "Yes", what tests have already been done at your own vet (e.g. urinalysis, blood tests, xrays etc)?

Did the vet prescribe any medication? YES NO

If "Yes" what is the medication? Duration? Did you notice a difference in litter box behaviour after taking?

Have you noticed any of the following since the litter box issues started?					
Frequent trips to the litter	box I	Producing small amounts of urine	Very large stool		
Crying or vocalizing while	eliminating	Soft stool, somewhat formed	Very firm or hard stool		
Straining to urinate	Blood in urin	e Small and hard stool	Diarrhea		
Large volumes of urine					

What have you tried already to resolve this issue? (ex. multiple boxes, changing litter, access to smaller areas of home, pheromones, etc.). Did any of these things help, make the problem worse?
